### HRONOLA NOTICE 12351

Subj: REDUCTION IN FORCE COMPETITIVE AREAS

Ref: (a) 5 C.F.R. 351.402

Encl: (1) Competitive Areas for Reduction in Force (RIF)

1. Purpose. Reduction in force competitive areas must be in effect prior to the initiation of a reduction in force (RIF). This notice identifies and/or updates RIF competitive areas for all commands serviced by the Human Resources Office New Orleans and its Memphis Field Office.

2. Background. The competitive area is the geographical and organizational boundary within which employees compete for retention during a RIF. It includes all employees within the competitive area so defined. A competitive area may consist of all or part of an agency. The minimum competitive area is an activity under separate administration within a local commuting area. Reference (a) requires establishment of competitive areas prior to conducting a RIF. Descriptions of all competitive areas must be made readily available for review. While competitive areas may be changed, the Office of Personnel Management must approve those competitive areas not in effect for 90 days prior to a RIF.

3. Action. Enclosure (1) lists competitive areas for RIF. Please disseminate this information to activity employees and supervisors. To satisfy the requirement to make RIF competitive areas available for review, the information is also available on the Human Resources Office website at [hro.nola.navy.mil](http://hro.nola.navy.mil). Should an activity desire to change a competitive area, please notify the Human Resources Office as soon as possible. A proposal to change a competitive area in those commands with unions may initiate an obligation for impact and implementation bargaining which must be satisfied before any change can be effected. Any questions should be referred to your Human Resources Office Customer Service Team.

  
M. BERGERON
